Consultant Trauma & Arthroscopy Surgeon Shoulder & Knee Specialist

@ Royalcare Superspeciality hospital, Neelambur, Coimbatore

Dr.Dinesh has done his residency in Orthopaedic surgery from level 1 tertiary trauma centre – Madras Medical College - where state of art surgeries are being performed and which is a referral centre for all complex trauma and sports related injuries. He has keen interest in Shoulder and complex trauma including pelvi-acetabular fractures. He has presented his research work in various state and national level conferences. He has performed a study on "Modified Bristow's repair in patients with Recurrent Anterior Shoulder Instability" during his residency.

He has completed his Fellowship in Orthopaedics & Trauma Surgery (FOTS) at Ganga Hospital, Coimbatore. He is the first surgeon in India to complete trauma fellowship in the prestigious Ganga hospital under the guidance of Dr.S Rajasekaran and Dr.J Dheenadhayalan.

He has also completed his Fellowship in Arthroscopy and Sports Medicine (FASM) at Ahmedabad, under the guidance of Dr.Prathmesh Jain.

He is one of the very few surgeons in India who has completed his international fellowship under the renowned shoulder surgeon Prof. Eiji Itoi in Tohoku university, Sendai, Japan. He is trained with most advanced surgical techniques in shoulder such as arthroscopic superior capsular reconstruction for massive irreparable rotator cuff tears, reverse total shoulder replacement and anatomical total shoulder replacement for glenohumeral arthritis in Japan.

Areas of Specialisation:

- | | |
|--------------------------------|--|
| Complex Trauma | - Open fractures, pelviacetabular fractures, polytrauma |
| Sports injuries | - Knee (ACL, meniscus, PCL, multiligamentous injury - Arthroscopic repair) |
| | - Shoulder (Recurrent instabilities, Cuff tears - Arthroscopic repair) |
| Massive rotator cuff tears | - Arthroscopic superior capsular reconstruction |
| Cuff tear arthropathy | - Reverse total shoulder replacement |
| Primary glenohumeral arthritis | - Anatomical total shoulder replacement |

He is now based in Royal care Superspeciality hospital, Neelambur which is a level 1 tertiary trauma centre, equipped with advanced infrastructure has performed major trauma and arthroscopic surgeries.

His main motto is to deliver quality medical services for the betterment of the injured.
