

"Respiratory Care Week 2021"

"Respiratory Care Week 2021" is celebrated in Royal Care Super Speciality Hospital from 24th to 30th October.

Respiratory Care Week is celebrated in the last week of October every year around the world in order to appreciate and acknowledge hard-working Respiratory Therapists.

Respiratory therapists are a vital part of the front-line care team in many areas Such as intensive care units, emergency departments, neonatal care, operation theatre and other clinical areas etc.

The Institute of Critical Care Medicine at Royal Care Super Speciality Hospital has conducted programmes like Poster presentations, Workshops and Webinars for their Respiratory Therapists for knowledge sharing and improving high-quality patient care. At the end of this programme, Dr K Madeswaran, Chairman appreciated and distributed the trophies and prizes for the Respiratory Therapists.
