IMPORTANCE OF MASTER HEALTH CHECK-UP

To maintain good health, undergoing a complete body check-up is extremely important. In line with the principle "prevention is better than cure," identifying health issues at an early stage and receiving appropriate treatment is essential. Modern lifestyles, environmental pollution, poor hygiene, and increased work-related stress can adversely affect health. Even if one appears to be healthy despite these factors, undergoing a preventive full-body check-up in advance helps detect hidden or silent diseases at an early stage. This enables timely intervention, prevention of complications, and in many cases, complete recovery.

GENERAL INSTRUCTIONS

- Our staff can guide in helping you choose the appropriate package
 - Please make prior appointment for health check-up
 - Please report at your appointed time at Front Office on or before 7 to 7:30 AM
 - Do not eat or drink past midnight of the day prior to your test (10-12 hours)
 - Avoid alcohol the 24 hours prior to registration date.
Do not take milk, tea or coffee, etc in the morning. Water intake is allowed
 - If you are on medications, kindly bring them along with prescription and medical reports if any. Morning dose can be taken after the blood tests
 - Please wear comfortable clothing and minimal jewellery
 - All the comprehensive test results can be collected on the same day
 - Any other specialist consultation/investigation can be done separately by registering under the consultant of your choice
 - Please call us 24 hours in advance to cancel or reschedule your appointment
 - If you are running a cold, fever, cough or any other illness kindly avoid Master Health Check-up
- ⊕ Radioactive tests would be used only as needed.

For outstation patients, accommodation can be arranged on pre-request at the service apartment / hospital premises (charges applicable).
